In his feverish drive to

Quickly and completely

"Wrap up" each intellectual episode

As it arose, this one guy explained,

"I don't wanna be the last one with sweat left on my brain."

...and Kyroot said:

Another thing about Revolutionist info - It has no downside.....

...It has no downside because
It has no back side.....

...It has no back side cause
There's nothing
Propping it up.

Just before he'd go out

This one ole dude used to like to announce,

"Hey, I'm goin' out."

... and Kyroot said:

In the Revolution,
a man with lots of good knowledge
is armed, but not dangerous.

According to this Press Release
There is a new book due out soon,
And one certainly going on my gift list;
Its full title is:
"Famous Quotations You've Never Heard
From People You've Never Heard OF:
(With An Index Of Subject Topics
Totally Unrelated To This Work)"

.....(Can the movie be far behind.)

... and Kyroot said:

Wrong ideas are primarily wrong
because of their inconvenience.

One ole sorehead,

Whose uncle is a forest ranger-and-a-half,

Recently said these words during a summer outing,

"Coming in at the end of most people's conversations

Is like having dessert without your mother looking over your shoulder."

... and Kyroot said:

One City "intellectual" said,
"Hey, I couldn't be much of an intellectual
to let myself get roped into a Kyroot." - Naw, just foolin',
he didn't actually say that,
what he did say was,
"All unknown facts seem interesting
until you know them."

Department of "Words Will Survive No Matter What You Say":

Anyone named *Flatamus Maximus*

Should cut down on the flatamuses.

Although the pay
for being a Smart Aleck
is relatively low
at least the hours are irritating.

One ole man told his kid

As being pushed-from-the-nest commenced,

"My dispatch gift to you my boy is a mental weapon,

A secret tool to recall, and it's this;

If there's something you just

'Don't want to think about' - Don't think about it.....

...Now,

Off

With

You."

...and Kyroot said:

All recognized, established ideas
Are already retired.

"Welcome aboard, Ladies and Gentlemen,
this is your captain speaking;
we will be sailing shortly,
and I would like to remind you that
'romance' is permitted ONLY among those in First Class."

.....(On some vessels
the purser would do a
"follow-up" to this
by reminding that
"First Class is where
no one calls
fuckin' 'fuckin'.'")

The game of all adult religion is threats
While its sport of infancy was hope & promise.

(Some more cheap fun): If you think stuff far enough ahead
then when you actually
"get around to thinking it"
it'll be like a surprise.

This one chap said most distinctly,

"No one understands me quite so well as my own partner.",

Who happened to be passing and injected,

"But I don't understand you at all.", and the chap said - "See."

... and Kyroot said:

Any question that

"has an answer"

can BE answered - (although the two are not necessarily the same.)

Building a new stadium

Back at the old playing field

Is just about what you think it is.

...and Kyroot said:

Taking the full vertical

Measure of himself in a mirror

This one chap touched his head and said,

"My mind is the caldron inwhich wisdom stews.",

He then held his hips and continued,

"And my body is the sturdy rack upon which it stands,

And," he concluded,

"The fuel is from the fat, grease and blubber of my

All too,

Too too

Human emotions."

When it rains in the City
many revolutionists feel homesick.

...and Kyroot said:

One fellow from the east sector of town

Would put things most succinctly by saying,

"Let's put these things in succinct perspective by just forgetting them."

... and Kyroot said:

Those who don't want you to understand
will go to great pains to explain.

...(Please note; In this universe
there is only one "those" - Life.)

The "One Mo' Time" Blues Department: (Gimmie a slow shuffle in B-flat..Ahem):

"Well,

Hello,

Baby/Kid/Partner,

I just called to say -

This ain't me..."

... and Kyroot said:

If you can take away enough
adjectives and adverbs
you'll have more room - (and you know what that means.)

...and Kyroot said:

At a small gathering

A tall gent handed me his card

Which read,

"Babcock Co-Op; Private Detective" ,

He admitted this was not his real family name,

But one he had given himself (as he put it)

"As to better reflect my desire to share

The brilliance of my mind, and

The glory of my achievements.....And,

You might wonder - 'Share with WHOM?',

Why with myself, old man, with my self."

...and Kyroot said:

FYI: A secondary, City activity has become
Institutionalized once its members have not only
Begun to believe their own advertising and propaganda,
But have in fact themselves started to nourish therefrom.

...and Kyroot said:

Many of history's great figures

Had brain tumors...

(Which wasn't realized until they became un-great.)

... and Kyrroot said:

In an intricate, though quite operational sense,
a Revolutionist's City tongue
could be said to be his own *advocatus diaboli* - devil's advocate,
inthat his everyday speech argues,perforce,
against his own wordless understanding.

...and Kyroot said:

This one other guy was dismayed

One day,

When glancing up he thought he saw

Rust stains on the ceiling of his bathroom shower;

He was later greatly relieved when he realized

He'd been looking internally.

...(I can assure you that even the most
Sophisticated neurosurgeon
Goes into sticker shock when
Confronted with a current
Painter's bill.)

The thinking of a Revolutionist
Is like receiving radio broadcasts
From stations not yet on the air.

... and Kyroot said:

"Say, Mr. Butcher Man, there's too much fat on that cut.",

"But it's nothing but bone as it is.",

"Then the BONE'S too fat."

... and Kyroot said:

Okay - it may take a long time to get there,
but it takes just as long not to.
